Grain and Tobacco Warehouse Burned—The Disastrous Deed of a Dastardly

Incendiary. The alarm of fire early this morning, to which no doubt most of our citizens turned an indifferent ear as they nestled snugly in thanks. bed, was the signal for the relief of the fire department to avert or at least check the most destructive work of the incendiary which has been visited upon our city for many years. The dwellers in and visitors to the northwestern part of Lancaster are familiar with the fine large brick warehouse located at the southwest corner of the Penusylvania railroad and West Lemon street, on the site of what was formerly Gorrecht's coal yard. This building, used as a storing place, and for trade in grain, tobacco, &c., and owned by H. B. Groff, was entirely destroyed by fire, together with its contents. The fire was discovered about half-past four o'clock by Benjamin Trost, who is employed by Coho & Wiley. coal dealers. He first saw it in the first floor of the western part of the building, which was occupied by Lederman & Bro., tobacco dealers. The fire spread rapidly, and in the space of three or four hours all the wood-work of the building was burned.

The eastern end of the warehouse was occupied by H. B. Groff & Co., the firm consisting of H. B. Groff and Wm. Westheffer. They are dealers in grain, flour, feed, &c., and at the time of the fire they had a large stock on hand which is entirely destroyed. The stock in their warehouse consisted of about 12 car-loads of corn, oats and different kinds of feed, 100 barrels of flour, a car-load of potatoes and a carload of apples. In this part of the building there were standing a car-load of flour in barrels and a car-load of lumber for tobacco cases, both of which were destroyed. The flour belonged to Jesso Ranck. It was loaded on the car yesterday and was to have been shipped to Philadelphia. The lumber which was on the car belonged to John C. Tiemeyer & Co., and it arrived yesterday. Three large grain elevators were also destroyed.

The middle of the building was occupied by John C. Tiemeyer & Co., tobacco dealers, of St. Louis, who are represented here by C. II. White. They had about 250 cases of tobacco, beside a lot of presses, tobacco boxes, etc. They were all consumed.

Lederman & Bro., also tobacco packers, occupied the western end of the building. They had no tobacco on hand but lost all their presses and a lot of cases.

The warehouse was 130x44 feet and was three stories high. The eastern half of the building was erected year before last and the western half last year-the whole costing between \$15,000 and \$20,000.

Mr. Groff had the building and machinery insured as follows, in companies represented by Bausman & Burns: Williamsburgh City insurance company, \$3,000 surance company, 84,500 on warehouse and machinery; North American company (H. S. Gara agent), \$2,000 on build-

The stock was owned by H. B. Groff & Co., and it was insured as follows, in companies represented by Bausman & Burns: London Assurance company, \$2,000; British America assurance company, \$3,000. Bausman & Burns had John C. Tiemey.

er & Co. insured as follows: Merchants' insurance company, of Newark, \$3,500: London assurance corporation, \$3,000 Williamsburgh City insurance company, \$1,500; French assurance corporation, \$1,500; Trans-Atlantic company, \$2,000 Commercial Union company, 83,500,

It is not known whether Lederman & Bro, had any insurance, but their loss will be small even if they had not. Mr. Ranck's car-load of flour and Tiemeyer & Co.'s tobacco case lumber were not insured. Mr. Groff is unable at present to estimate his loss, but the insurance on the building will not cover it. The loss of H. B. Groff & Co. will be more than the insurance,

Bausman & Burns had the leasing of the two warehouses. But a short time ago Tiemeyer & Co. renewed their lease for the coming year, and the warehouse occupied by Lederman & Co. was leased to John Moore, of Philadelphia, for the year

It is not known how the fire originated, but it is believed to have been the work of an incendiary, as no fire is used in the part of the building where it was first seen. Notwithstanding the very cold weather

the firemen responded promptly to the alarm and several engines were soon on hand. The men worked very hard and many of them were covered with ice, caused by the water which was thrown upon them. At 10 o'clock this morning the fire was still burning and the firemen kept at work during the whole of the fore During the progress of the fire, the lum-

ber in the yard of Coho & Wiley and the frame houses in the neighborhood were kept from burning by the firemen, who kept streams playing upon them. Several horses in a stable near the burning building were taken to a safer place. All day to-day people have been visiting

the burnt building; the high walls are all that is left.

The Water Supply.

The firemen experienced a great deal of trouble in getting water. Several plugs they say were frozen and they were com-pelled to thaw them out with hot water. it was almost a half hour before they could be thawed, but after that the water was abundant. The pipes were full of water at that point and the frozen plugs were the only cause of the delay. Had the firemen been able to obtain water earlier they would have been able to do more effective service, and possibly to save much of the

property destroyed. Water Supt. Kitch says that no plugs in the city have been frozen and that a!l the difficulty experienced in getting water was due to the large number of engines in service and the small calibre of the water

Origin of the Fire.

It was reported this morning that the fire originated from a stove which was in one of the cars in the warehouse. This seems to be improbable, however, as there were only two cars in the warehouse and neither had fire in. Both these cars were in the eastern end of the warehouse while the fire was discovered at the extreme western end.

One of the burned cars was the property of Mr. Ranck and the other belonged to the Penusylvania railroad com-

"Dr. Clyde."-Sidney Rosenfeld's comedy of this name is a composition sparkling with the most delicious humor, as people who witnessed its production here last winter will readily bear witness. The fun is pure and wholesome and always "catches" an audience. There is no unpleasant theme mixed up in its unfolding, but the mirth is as devoid of the first suspicion of bitter flavoring as it is continuous and convulsing. Mr. Jno. F. Ward's imper sonation of the character of Higgins is a study and no one who has ever witnessed his oddities or listened to his strange misapplication of medical phrases in his own peculiar and ininitable tone of voice is likely to quickly forget it.
